

**ZSP KALISZ POMORSKI**

**Our school is named after  
Memory of The Victims of  
Terrorist Attacks of the  
September 11, 2001.**

**The School was named that  
to commemorate the people  
who died during terrorist  
attacks in the USA.**

**This is the only high school  
in our town.**

**The building of our school** dates from the end of the 19th century. It is a specific red brick building, and it immediately catches the eye of those who come to our small town for the first time. Before the II World War, it was a German school, and Polish school has been founded here in 1948. At the beginning, it was only a primary school, but over time it transformed into a high school and the primary school has been moved to another building. The first Polish director and founder was Jan Sujkowski.

**In this school there are  
392 students and 39  
teachers.**

**Every day our students  
commute to school from  
neighboring villages and  
towns, but over 200 of  
them live in a boarding-  
houses.**

**In the premises of our school we have a so-called “Intelligent Garden” created by students, they can spend breaks there.**

**This school has participated in many European projects for a long time.**

**Our school offers a wide range of additional activities: English and German courses, drama classes, photography workshops, economy classes, graphic design, etc.**
